

Student Essay

Your essay should be in your own handwriting in the space below or on a separate sheet of paper.

Describe yourself as objectively as possible. How would you describe your own personality? What kind of a student are you, taking into consideration your different classes? What interests do you have both in and out of school? How do you see yourself in relationship both to you peers and adults?

From what you know about The Academy, why do you feel it is the right school for you?
