Introduction to Foreign Languages - This course gives 7th grade students a first taste of both languages, Spanish in first semester, French in second semester. Students are introduced to what it means to study a foreign language, which cultures and ethnic heritages are associated with each language, as well as typical foods, music and the sounds of Spanish and French. Students will learn basic expressions such as greetings, numbers, colors, food, clothes and time in order to be able to conduct basic conversations with Spanish and French speakers. They will work on a number of cultural projects, such as learn about a Francophone or Spanish-speaking country in greater depth, explore French Impressionism and learn about the first explorers in the New World. At the end, students will decide which language to pursue in the years to come.
