Spanish I - Students begin their two-year study of Spanish language and culture in our textbook, covering the first half over the course of the year. Students study new vocabulary, learn how to conjugate verbs, and begin to acquire an understanding for sentence structure and grammar in the Spanish language. This class is dynamic and active, emphasizing discussion and application of pronunciation and communication skills. Students complete nightly homework, write creative skits with peers, complete creative projects and regularly investigate the current events of the Spanish-speaking world. This course aims to have students leave the course with a solid foundation of Spanish vocabulary and grammar and confident in their listening and speaking abilities.
