Fundamentals of Literature II

As an extension of the Fundamentals of Literature I, this course will expand upon students' knowledge of and experience with the main genres of literature and the literary devices authors often employ in their work. Students will learn to identify structural elements in works of poetry, fiction, and drama, and analyze how those elements help create specific meanings and effects in a literary work. Additionally, there will be a strong emphasis on the writing process for both academic and creative writing assignments. Designed to increase students' confidence in and passion for reading and writing, this course will prepare students with the foundational skills necessary for upper-level courses at the Academy.
