Foundations in Art 9

This year the 9th grade class will be introduced to value and color as elements of art. During the course, students will be given various exercises designed to enhance their sensitivity and appreciation of value and color. Students will complete drawing and painting exercises to give them greater familiarity with illusionism, three dimensionality, and expression. In addition to hands-on learning, students will watch documentaries about artists, complete readings related to value and color, and go on field trips.
