### **Latin I**

Students in this course build on the introductory class to gain a deeper understanding of the Roman world, develop comprehension of the Latin language, and strengthen their grasp of the inner workings of languages. They progress toward these aims by translating, reading, hearing, and discussing stories in Latin; by building a corpus of vocabulary in connection with other languages; and by seeking a strong understanding of basic Latin syntax. At the end of grade 9 students decide if they wish to continue to study Latin.
