

2018 Summer Internship Program

The Academy is committed to matching you with industries and positions which intrigue you, ignite your passions, and give you opportunities to explore you own ideas. Your time in these positions will be meaningful, and our intention is that you will come away with a new perspective on work in an area about which you are curious.

Following are some of the fields in which internships may be possible for you. Please fill out this form and indicate the areas which interest you most so we can begin to discuss plans. If you turn in this form, you are committing to be in a 1- or 2-week internship at some point in the summer (assuming scheduling works out). If there are other areas of interest, please write those below too and we'll try to find something for you!

Return this form to the Main Office by December 15.
